RE: September 25 Score chan

Alexandra -

Of the 29,891 buildings listed, 3,652 had their rating drop by 2 or more points - these are the buildings affected by the extrapolation.

I hope this answers your questions. Please let us know if you need anything else.

Thanks, Kristine

3	Michael 2	Zatz	Alexandra and Aly, I looked over the aggregate report and the office r
<u></u>	Alexandra	a Sullivan	Mike, In response to your questions:

Mike,

Attached please find the draft report for the aggregate changes, in addition to the draft reports for each sector. Please note that the final sector reports will be accompanied with an eletronic Excel file listing all of the buildings and their characteristics. Aly and I are still working on analyzing the banks, so there are some items highlighted as "to be completed" in the reports. There are also a few hotels that we're looking into. But, in general these drafts are close to complete. Could you please try to review these this afternoon or first thing tomorrow? We are hoping to distribute them to everyone at Monday's branch meeting, but we want to make sure you are comfortable with the content.

I know this is a lot to spring on you. I was hoping to discuss it with you in person, but I didn't realize you would be out so much this week. If you are pressed for time, then please try look at the Aggregate Changes and one of the sectors. This will give you an idea of the type of information and the overall presentation.

Finally, I also have a list of the 388 buildings that will be losing ratings due to the change in the eligibility requirements. I didn't include this in the aggregate changes cause it is a different issue and there is already a lot of stuff going on. How do you want to handle these buildings?

Will you be in tomorrow to discuss these issues?

Thank you,

Alexandra Sullivan

Healthcare.doc

Alexandra and Aly,

I looked over the aggregate report and the office report. This is great work, thanks so much for putting it together. I think the aggregate report looks good, and had only one thought. Could we add something indicating any changes in data input requirements from users for each of the space types. I think this may only apply to office (percent heated and cooled) and garage, but am not 100% sure. I think this document could go to our contractors as is, but this additional information would probably be valuable to them, as they will likely get a lot of questions from users about the new inputs (or any that were dropped, though I'm not sure we have any that were dropped). (b) (5), (b) (4)

The sector report looks good too, and I think provides a lot of valuable data. I don't have any suggested changes to it.

As for the 388 buildings that lose ratings eligibility, there's not much we can do, but depending on who they are, we may want to give some a heads-up (in particular if one organizations has a bunch that will lose eligibility. So, for now, could you maybe sort the list by building owner or manager so that we can see if there are any that are losing a lot, and send it to me to look at. Then we could figure out how to move on that.

I can talk by phone today if you want to discuss any of this. Please call 703-796-1830. I may need to drive down to the office midday to return a laptop that Gwen needs for Monday, so we could talk then, but I also don't want to risk getting folks sick, so I'd understand if you didn't want to talk face-to-face. Your call.

Thanks for all of the great work on this.

	Alexandra Sullivan	Mike, In response to your questions:		

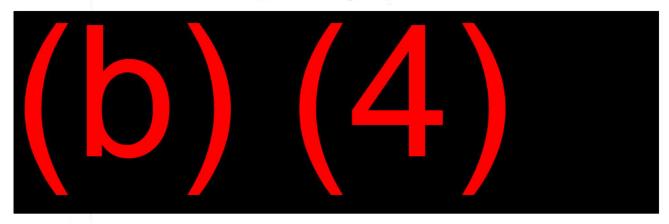

Mike,

In response to your questions:

1. Data requirements information Good suggestion - we will add this information into the aggregate changes document before we pass it out on Monday.

3. Presenting the info to the branch and account managers There is a meeting scheduled for 2 pm Monday which will include contractors as well as the branch. I have a feeling that this may not be enough (only 1 hour), but we will respond to as many questions as possible and schedule additional meetings as necessary.

5. Eligibility to receive a rating

The attached excel file contains this list of buildings who will lose rating eligibility. It is sorted by the field "Organization Name"...but not all buildings have an entry for this field. You can still see some other identifiers, like the account email.

I hope you're feeling better and I'll see you on Monday,

Alexandra Sullivan

Kris,

Thank you for this explanation. I do have two follow-up questions:

1. Office Look-up Table

(b) (5), (b) (4)

<u> </u>	Denessa Moses	Portfolio Manager Updates NOW AVAILABLE!	

I am thrilled to announce that Portfolio Manager was successfully updated over the weekend and is now available with the revised Office model, new Retail model, Wastewater Treatment Plants rating and other improvements. We still have a few minor things to take care of (i.e. updates to a couple of web pages, PM Tour, etc.), but no major bugs/show-stoppers.

A BIG THANK YOU to everyone in the Branch who helped along the way - especially Alexandra, Aly, Gwen, Mike, Cindy, Jean and many of the Sector folks...and the contractors. We could not have done it without you!

Thanks, Denessa

∆ Lisauskas, Sara RE: September 25 Score changes
 ✓ Alexandra Sullivan Sara,

Sara,

Thank you for looking into this. I agree that it is weird and I have identified two next steps:

2. Quality Check on PM Procedures

I hope you are having a productive time at EEI. When I hear back from SRA on Item 1, I will let you know what we find.

Thank you,

Alexandra Sullivan

Thanks for the explanations. It is good that you were able to figure them out, and it sounds like neither issue is a problem with ratings going forward.

Sara
